

Austin Beveridge

Junior Software Developer

(406)223-2695 | Austinbev.dev@gmail.com | [GitHub](#) | [LinkedIn](#) | [Portfolio](#) | Bozeman, MT

OBJECTIVE:

As a graduate of Coding Temple's Software Engineering course and a backend developer in Co.Lab's AGILE development program, I am keen to transition from my real estate career into software development. Equipped with a diverse skill set in both backend and frontend technologies, I am enthusiastic about contributing to a software engineering team, aiming to tackle real-world challenges through innovative software solutions.

TECHNICAL SKILLS

Technologies: Python, SQL, PostgreSQL, Flask, JavaScript, TypeScript, React, HTML5, CSS3

Tools & DevOps: Git, Netlify, Firebase, ElephantSQL, Visual Studio Code, Render, TailwindCSS, Node.js, Glitch, Jinja Templating, JSON, REST APIs, Redux, DBEaver, AXIOS, Redis

Certifications: Coding Temple - Full Stack Software Engineer <[Credly](#)>

EDUCATION

Coding Temple | Software Developer in Training

07/2023

- **HTML & CSS:** Delved into front-end web design utilizing Bootstrap, CSS grid, and Flexbox for optimal web layouts.
- **Python:** Established a solid foundation in Python from OOP to algorithm optimization.
- **SQL:** Became proficient in relational database manipulation, emphasizing efficient data operations.
- **Flask:** Utilized Flask integrating all learned modules to shape an all-encompassing application. Developed capabilities in API data transfer, secure application authentication, and application hosting.
- **JavaScript:** Made use of JavaScript to enrich website interactivity and unlock advanced styling possibilities.
- **React:** Delved into Facebook's React framework for front-end development. Worked extensively with component structuring, information transfer with Redux, and backend API integration using Flask.

Montana State University

05/ 2018

Bachelor of Science, Business Management

PROJECTS

Yeonjii - Lead Backend Developer and Co-Founder: [\[yeonjii.com\]](#) [\[GitHub Backend\]](#) [\[GitHub Frontend\]](#)

(2023)

- **Backend Architecture:** As the principal backend engineer, I designed and implemented a robust system using Flask, Python, OpenAI API, and Redis. This architecture ensures scalability and sets the stage for future monetization in early 2024.
- **API Development:** By integrating insights from career coaches and talent acquisition experts, I enhanced ChatGPT to provide a superior AI-assisted cover letter writing tool. The system is now being augmented with a Grammar API, adding capabilities for grammatical and syntactical improvements in the generated cover letters.

Scout For Trout : [\[scoutfortrout.com\]](#) [\[GitHub Backend\]](#) [\[GitHub Frontend\]](#)

(2023)

- **Robust Full-Stack System:** Architected a high-performance fly fishing platform with Python-Flask backend and React frontend, interfacing seamlessly with ElephantSQL and Firebase.
- **Real-time Data Integration:** Utilized USGS API to fetch live river metrics, enhancing user experiences through dynamic Google Map Pins. This integration creates cloud-based, private fishing locations accessible only to signed-in users across devices.
- **State Management & Personalized User Experience:** Enabled seamless Google account login, ensuring personalized and private fishing dashboards. Further enhanced by advanced redux state management and dynamic UI components.

EXPERIENCE

Co.Lab - Software Developer

10/2023 - Current

- **Collaborative Product Development:** Engaged in an intensive 8-week AGILE program focused on building software solutions to address real-world problems as the sole backend developer on my team.
- **Cross-functional Teamwork:** Worked closely with a diverse team of junior tech professionals, utilizing AGILE best practices to refine product concepts and designs iteratively.
- **User-Centric Design Approach:** Actively involved in product development from ideation to execution, ensuring the end product aligns with user needs and expectations.

ERA & NAI Landmark Real Estate - Residential and Commercial Agent / (Bozeman, MT)

05/2018 - 08/2023

- Independently brokered real estate deals, with strong negotiation skills and market insight.
- Cultivated relationships with 100+ clients and investors, emphasizing effective communication and problem-solving

Colliers International / [Brokerage Intern](#) (Milwaukee, WI)

06/2017 - 09/2017
